

EXCELLENCE IN
INNOVATION & QUALITY

Next level innovation, fueled by
sound research.

ARTI[®]
— CHEMICAL INDUSTRIES —

COMPANY PROFILE

Arti Chemical Industries is the brainchild of our founder and chairman, Mr. Nainesh Shah. He envisioned putting Arti Chemical Industries on the national and international map as one of the world's leading additive manufacturers and suppliers, leveraging on three decades of expertise in the chemical industry. Every great journey starts with a small, but an all-important first step. And Arti Chemical Industries took that first step under the visionary leadership of Mr. Shah in 1992. Today, it operates out of its state-of-the-art facility cum office in Gujarat.

Customer-centric and quality focused approach, commitment to excellence, superior quality product portfolio, exceptional service, customized solutions at a competitive price and integrity forms the cornerstones of Arti Chemical Industries. Creating customer delight is at the heart of every business initiative we undertake. The company is dedicated to manufacturing and supplying the best quality stabilizers, lubricants and metallic stearates used in the making of diversified Poly Vinyl Chloride (PVC) products, to drive customer delight.

VISION

To become one of the leading manufacturers & suppliers in India and achieve sustained independent growth in the international market.

VALUES

Customer-centric approach, integrity, commitment to excellence, superior quality product portfolio, exceptional service and customized solutions at a competitive price forms the bedrock of Arti Chemical Industries.

MISSION

To achieve consistent and constant growth in all dimensions, ensuring development of our investors, clients and employees.

OUR PRODUCTS

Arti Chemical Industries is engaged in the manufacturing of superior quality PVC Stabilizers, Lubricants and Metallic Stearates. Our products provide one stop solution for all lubrication ,thermal and heat related issues in the manufacturing of PVC Pipes, PVC Profiles, PVC Cables, PVC Doors & Windows, Edge bands, WPC, Masterbatches, PVC Compounding, Water Proofing , Shoes and Leather Clothes. Our products are also an integral part of the Pharmaceutical, Food and Petrochemical Industry. We ensure timely delivery of consistent products at the most competitive prices.

Grade	Product Name	Appearance	Moisture (Max.)	Suggested Applications
ARTI - 7000	Tetra Basic Lead Sulphate	Off White Fine Powder	0.5%	Rigid & Plasticized: Pipes, Profiles, Cable Compound etc.
ARTI - 7002	Tri Basic Lead Sulphate	White Fine Powder	0.5%	Rigid & Plasticized: Pipes, Profiles, Cable Compound, Polymer etc.
ARTI - 7003	Tri Basic Lead Sulphate	White Fine Powder	0.5%	Rigid & Plasticized: Pipes, Profiles, Cable Compound etc.
ARTI - 7005	Tri Basic Lead Sulphate	White Fine Powder	0.5%	Rigid & Plasticized: Pipes, Profiles, Cable Compound etc.
ARTI - 7020	Di Basic Lead Pthalate	White Fine Powder	0.5%	As a Stabilizer Kicker in Pipes, Profiles, Cable compounds etc.
ARTI - 7030	Di Basic Lead Phosphite	White Fine Powder	0.5%	Excellent heat stability and weather resistance. Used in profiles, Pipes, Cable compounds etc.
ARTI - 7007	Di Basic Lead Stearate	Off White Fine Powder	0.5%	Good lubrication at high temperature operations. Used in Pipes, Cables, Flexible Profiles.
ARTI - 7009	Lead Stearate	White Fine Powder	0.5%	Stabilizer and Lubricants in Pipes, Cables, Flexible Profiles.

Lead Based Commodity Stabilizers

Lead singles are known to exhibit excellent long term heat stability and outstanding electrical properties and extensively used as a heat stabilizer in the PVC formulation. These are available in powder forms, which help the PVC in the extrusion process. Choose Arti Chemical's Lead-based Commodity Stabilizers. Choose complete peace of mind.

Grade	Appearance	Moisture (Max.)	Suggested Applications
ARTI - 604	Off White Flakes	0.5%	ISI Pipes, All type of Profile, WPC, Foam sheet etc.
ARTI - 6040	Off White Flakes	0.5%	ISI Pipes, All type of Profile, WPC, Foam sheet etc.
ARTI – 6040 NI	Off White Flakes	0.5%	All type of ISI and Commercial Pipes.
ARTI – 6040 S	Off White Flakes	0.5%	ISI Pipes, All type of Profile ,WPC , Foam Sheet etc.
ARTI – 6318 AS	Off White Flakes	0.5%	All type of ISI and Commercial Pipes
ARTI - 6318	Off White Flakes	0.5%	All type of ISI, Commercial Pipes and Profiles etc.
ARTI - 6318 NI	Off White Flakes	0.5%	All type of PVC Pipes.
ARTI - 603	Off White Flakes	0.5%	All type of PVC Pipes.
ARTI - 6053	Off White Flakes	0.5%	All type of ISI and Commercial Pipes.
ARTI – 605 M	Off White Flakes	0.5%	All type of PVC Pipes.
ARTI - 6051	Off White Flakes	0.5%	All type of PVC Pipes.

Lubricated One Pack Stabilizers

Lubricated One Pack Stabilizers are manufactured with high precision by using standardized procedures under a controlled environment to deliver superior quality product on time, every time at a competitive price. These are dust-free, easy to use compounds, which reduces the use of lubricant. It should be used just once and that too in less dosage. Choose our Lubricated One Pack Stabilizers to give the leading edge to your company.

Grade	Appearance	Moisture (Max.)	Suggested Applications
ARTI - 6003	White Powder	1%	All type of Profiles, Cable compound, Hose pipe etc.
ARTI - 6009	White Powder	1%	All type of Profiles, Cable compound, Hose pipe etc.
ARTI – 6006	White Powder	1%	All type of Profiles, Cable compound, Hose pipe etc.
ARTI – 6008	White Powder	1%	All type of Profiles, Cable compound, Hose pipe etc.
ARTI – 6030	White Powder	1%	All type of Profiles, Cable compound, Hose pipe etc.
ARTI - 6020	White Powder	1%	Economical grade for semi rigid & flexible formulations.
ARTI - 6011	White Powder	1%	Specially for Cable compound.
ARTI - 6010	White Powder	1%	Specially for Cable compound.
ARTI - 6090	White Powder	1%	Shoe compounding for durability and weatherability properties.
ARTI - 6091	White Powder	1%	Shoe compounding for durability and weatherability properties.

Non Lubricated One Pack Stabilizers

At Arti Chemical, we manufacture and supply high performance Non-lubricated one pack stabilizers. These are specially designed to provide optimum performance on PVC extruders. These are available in powder form. Choose Arti Chemical's Non-lubricated One Pack stabilizers. Choose complete peace of mind.

Grade	Product Name	Appearance	Moisture (Max.)	Suggested Applications
ARTI – 602 L	One Pack Lubricant	White Flakes	1%	Replacement for All individual internal and external lubricants & Reduce dosage.
ARTI – 603 L	One Pack Lubricant	White Flakes	1%	Replacement for All individual internal and external lubricants & Give extra Shining.
ARTI – 604 L	One Pack Lubricant	White Flakes	1%	Replacement for All individual internal and external lubricants & gives extra flow.
ARTI – 606 L	One Pack Lubricant	White Flakes	1%	Replacement for All Internal and external lubricants. Gives Excellent flow & Shining.
ARTI – 608 L	One Pack Lubricant	White Flakes	1%	Replacement for All Internal and external lubricants & is Cost Effective.

Lubricant

Lubricants are used to reduce shear and frictional heating during the processing of PVC. It helps in reduction in friction heat, reducing melt viscosity which increases the flow and improved gloss to make it more shining.

Grade	Product Name	Appearance	Moisture (Max.)	Suggested Applications
ARTI - 5002	Calcium Stearate	White Fine Powder	0.5%	Excellent Internal & External Lubricant with good gelation properties. Also used in Food Industry.
ARTI - 5007	Zinc Stearate	White Fine Powder	0.5%	Mould releasing agent & Lubricant in rubber and plastic industries. Used in cosmetics too. It gives clarity and weather resistance.
ARTI - 5005	Barium Stearate	White Fine Powder	0.5%	Lubricants for rubbers and plastics. It helps against deterioration caused by light and heat.
ARTI - 5004	Magnesium Stearate	White Fine Powder	0.5%	Used as lubricant in tableting and pharmaceuticals.

Metallic Stearates

Metallic Stearates are excellent lubricants with metals. At Arti Chemical, our in-house manufacturing experts leverage on their expertise to manufacture and supply different metallic stearates in powder form. Choose Arti Chemical's Metallic Stearates. Choose complete peace of mind.

Grade	Suggested Applications
Arti – 5220	Casing, Plumbing, Agri, SWR, Column, Foam core and all other types of pipes.
Arti – 5211	Specially for Column Pipes.
Arti - 5214	Casing, Plumbing, Agri, SWR, Column, Foam core and all other types of pipes.
Arti - 5965	Casing, Plumbing, Agri, SWR, Column, Foam core and all other types of pipes.
Arti - 5108	Cable Compounding (sheathing).
Arti - 5308	Cable Compound.
Arti - 5040	SPC Floorings, PVC,WPC, SPC Boards/Sheet/Profile.
Arti - 5041	WPC, Foam Sheet, PVC & UPVC Profiles, UPVC Doors & Windows.

Lead Free Ca/Zn Based Stabilizers

Because of the Lead Free characteristics of Calcium/Zinc stabilizers, they are widely used in many flexible and rigid PVC applications. They provide good mechanical and electrical properties along with excellent outdoor weatherability.

Our Ca/Zn based stabilizers are used for various other applications like: Fittings, Profiles, Sheet, Flooring, WPC,SPC Flooring, Foam Boards, Tubes & Footwear and in Pharmaceutical uses as well.

FUTURE PRODUCTS

In addition to our existing product portfolio, we plan to introduce a bouquet of new products, including Mix Metal Liquid Stabilizers, Liquid PVC Stabilizers, Combination Driers/Paint Driers, Unsaturated Polyester Resin and Anti-rodents & Anti-termites.

Liquid Stabilizers	Liquid PVC Stabilizers	Combination Driers	Paint Driers	Unsaturated Polyester	Anti Rodents & Termites
Ba / Cd Stabilizer	Barium Octoate	Cobalt / Manganese / Lead	Cobalt Octoate	Cobalt Octoate	Copper Naphthenate
Ba / Cd / Zn Stabilizer			Manganese Octoate		Lead Naphthenate
Ba / Zn Stabilizer	Cadmium Octoate	Cobalt / Calcium / Lead	Lead Octoate	Potassium Octoate	Zinc Naphthenate
Ca / Zn Stabilizer			Zinc Octoate		
Ba / Cd / Pb Stabilizer		Cobalt / Barium	Calcium Octoate		
Ba / Pb Stabilizer		Cobalt / Zinc			
Cd / Zn Stabilizer					
K / Zn Stabilizer					

COMPLETE RANGE OF PLASTIC ADDITIVES

PVC pipes /
PVC compou-
nding

Master batch

Foam boards

PVC Doors
and windows

PVC / UPVC
Profiles

Cables / Cables
compounding

WPC Boards

Shoe
compounding

Edge bands

Leather clothes

**APPLICATION OF OUR
PRODUCTS**

OUR USP

Continuous R&D
to make
innovative
products to
benefit our
clients.

Maintain
consistency in
product quality.

Provide quality
products at the
most competitive
price.

Timely delivery of
orders.
